

Last Wednesday's debate is news. Actions revolving around the Vietnam War are history. I lived through that era, and know the difference.

Sinclair Broadcasting's decision to launch a Republican propaganda program as a news event insults the intelligence of every viewer in America. I don't see on the schedule any comparable airing of Fahrenheit 9/11 or Going Upriver.

Sinclair is using public radio spectrum for their narrow, right-wing political ends. That is just plain wrong. They may think a presidential win by any means is OK, but that attitude demonstrates the worst side of human nature and nothing of what this country should stand for. Inviting John Kerry to participate in a post-broadcast discussion is the classic "When did you stop beating your wife?" kind of yellow journalism. If Sinclair doesn't have respect for Americans and American values, then the FCC should take you off the air.

My local Sinclair station is WDKY. I have let them know my views, and the views of my family. We're waiting for the FCC or Sinclair to do the right thing and terminate the airing.

Failing that, I urge the FCC to consider the scope of Sinclair's actions and NOT renew their broadcasting licenses.
